

UNIVERSAL AMPUTEE

For users who have a single or double amputation.

USAGE

- For transfers from a sitting or lying position.
- For transfers in mobile and stationary hoists.

FEATURES

- The sling is transferring user from a wheelchair/chair or from lying position from a bed or bath.
- The sling provides good support of the body and stabilizes the pelvis, which give the user a feeling of stability and safety.
- Comes with an extra soft cuff which can be fastened around the amputated leg.
- The sling has shared leg straps with special strap solution, which means that the leg straps are not crossed. The leg straps have a large padded surface, which reduces the pressure on the entire femur.
- The sling ensures an upright sitting position that contributes to a correct positioning of the user.
- The sling has a small seat opening.
- Comes with a location pocket for better sling fitting when sitting in a wheelchair, and guide straps on both sides of the sling to make the transfer easier.
